

Laparoscopic Myomectomy Masterclass

Date: Tuesday 12th April 2022

Location: The Griffin Institute Northwick Park Hospital HA1 3UJ

Welcome

This course is designed for ST6 and above to expand their knowledge and skills of laparoscopic myomectomy through hands on practice and interactive sessions. Focus is given to the evidence and surgical skills in complex laparoscopic myomectomy surgery.

The training program will consist of hands-on practice, surgical videos, interactive lectures, and Q&A sessions.

We have spaces for 12 delegates, please contact Claire Davidson (Ethicon) should you wish to join this training.
